Office Action Summary

Art Unit: 3652

Detailed Action

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, "being" in line 4 should be changed to a phrase similar to --comprising means-- and in line 21 a phrase similar to --mounting member-- should be inserted after "tine". The first amendment is needed to provide structure to perform the desired function and the second amendment is needed to properly correlate the claimed elements.

Regarding claim 11, "further" in line 1 should be changed to a phrase similar to --wherein said means attachable--. The above proposed change for claim 1 dictates this amendment.

Regarding claim 12, line 4, "being" should be changed to --comprising means--.

Regarding claim 20, see claim 11 above.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lull '405.
